Ages and Stages Outcomes

Chana High School Child Development Program 2004-2005 school year

Summary:

During the 1st term of the 2004-2005 school year I assisted six mothers with the completion of the Ages and Stages Questionnaire. There were two children who were not assessed during this term due to attendance issues and program changes after the infants met the entry age requirements for the assessment. However, during the time those infants were in attendance they appeared to be meeting their developmental milestones. Both children should have been administered the 4 month questionnaire in December 2004.

4 month ASQ summary	Score	Cutoff
Communication	60	33.3
Gross Motor	60	40.1
Fine Motor	60	27.5
Problem Solving	60	35.0
Personal-Social	55	33.0
	•	
12 month ASQ summary	Score	Cutoff
Communication	55 60	15.8
Gross Motor	55 60	18.0
Fine Motor	50 60	28.4
Problem Solving	55 60	25.2
Personal-Social	50 60	20.1
16 month ASQ summary	Score	Cutoff
Communication	60	34.5
Gross Motor	60	32.3
Fine Motor	55	30.6
Problem Solving	40	26.9
Personal-Social	60	26.7
